

Exhibits and Displays in School Buildings

The School District may display works of art, and other items of cultural, historical, artistic and educational value in appropriate locations in the school buildings. The Building Principal shall preview all items to be placed in a display or exhibit in a school building to ensure that they are of artistic and educational value and are appropriate for display in the school building based upon the age and maturity of the students in the building and visitors to the building. The Building Principal's determination may be appealed to the Superintendent of Schools. The Superintendent's determination may be appealed to the Board of Education whose decision shall be final. No item will be displayed which, in the opinion of the Board of Education, is obscene, vulgar, lewd, is inappropriate for viewing by minors or violates community standards of decency for spaces which demand sensitivity to the involuntary exposure of young people.
