Newburgh Board of Education **School Safety Plans and Teams**

Adopted: November 22, 2016

Emergencies and violent incidents in schools are critical issues that must be addressed in an expeditious and effective manner. The Board of Education recognizes its responsibility to adopt and keep current a comprehensive district-wide school safety plan and building-level emergency response plans regarding violence prevention, crisis intervention, emergency response and management.

Taken together, the district-wide and building level plans provide a comprehensive approach to addressing school safety and violence prevention, and provide the structure where all individuals can fully understand their roles and responsibilities for promoting the safety of the entire school community. The plans shall be designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the district's coordination with local and county resources. The plans shall also address risk reduction/prevention, response and recovery with respect to a variety of types of emergencies and violent incidents in district schools.

In accordance with state law and regulation, the district shall have the following school safety teams and plans to deal with violence prevention, crisis intervention and emergency response and management:

Comprehensive district-wide school safety team and plan

The Board will annually appoint a district-wide school safety team that includes, but is not be limited to, a representative from the following constituencies: the Board, students, teachers, administrators, parent organizations, school safety personnel and other school personnel, as well as other individuals as may be determined by the Board. This team is responsible for the development and annual review of the comprehensive district-wide school safety plan. The plan shall cover all district school buildings and shall address violence prevention (taking into consideration a range of programs and approaches that are designed to create a positive school climate and culture), crisis intervention, emergency response and management including communication protocols, at the district level. It shall include all those elements required by law and regulation.

The Board may also appoint a student representative to the district-wide school safety team. However, no confidential building -level emergency response plans shall be shared with the student member, nor shall the student member be present during discussion of any confidential building-level emergency response plans, or confidential portions of the district-wide emergency response strategy.

Newburgh Enlarged City School District

District-Wide School Safety Plan

The Superintendent of Schools or his/her designee shall be the district's chief emergency officer, and shall coordinate communication between school staff and law enforcement and first responders. The chief emergency officer shall ensure that all staff understand the district-wide school safety plan, and shall also ensure that building-level emergency response plans are completed, reviewed annually, and updated as needed, to maintain security. In accordance with law, the building-level emergency response plans(s) shall be confidential and shall not be subject to disclosure under the Freedom of Information Law or any other law.

Building-level emergency response teams and plans

Each Building Principal shall be responsible for appointing a school safety team annually that includes representation from teachers, administrators, parent organizations, school safety personnel, other school personnel, local law enforcement officials, local ambulance and other emergency response agencies. The school safety team shall be responsible for the development and review of a building-level emergency response plan for each district building. The plans shall address communication, emergency response, and evacuation at the building level and shall include all procedures required by law and regulation.

Within each building, the school safety team shall designate:

- an emergency response team that includes appropriate school personnel, local law enforcement officials and representatives from local, regional and/or state emergency response agencies to assist the school community in responding to a serious violent incident or emergency; and
- a post-incident response team that includes appropriate school personnel, medical personnel, mental health counselors and other related personnel to assist the community in coping with the aftermath of a serious violent incident or emergency.

The Building Principal, in consultation with the Superintendent, shall annually designate a threat assessment team to provide ongoing support and information in order to identify, and assess individuals who may be potential threats to safety, with the intent of minimizing acts of violence in the school community. The threat assessment team shall be composed of, but not limited to, the following personnel from both within the school and the larger community, as appropriate: building administrators, legal counsel, the medical director and/or school nurse, school counselors, local mental health and social service providers, law enforcement, school resource officers, security personnel, and facilities and maintenance personnel. The team shall meet regularly. The team shall be mindful of the need for discretion and observance of confidentiality requirements.

Students shall be encouraged to bring their concerns to any district employee. If a district employee becomes aware of a threat to the school community, the Building Principal shall be informed and he/she will convene the threat assessment team. The Building Principal may request the participation of the following additional individuals who may have specific knowledge of the potential perpetrator: supervisors, teachers, students and parents. The Building Principal is responsible for keeping the Superintendent informed about the

Newburgh Enlarged City School District District-Wide School Safety Plan

activities of the threat assessment team. Threat assessment team members shall receive appropriate training.

The Building Principal shall be responsible for conducting at least one test every school year of the emergency response procedures under this plan including procedures for sheltering and early dismissal.

To maintain security and in accordance with law, the building-level emergency response plans shall be confidential and shall not be subject to disclosure under the Freedom of Information Law or any other law.

Annual Review and Report

All plans shall be annually reviewed and updated, if necessary, by the appropriate team by **July 15th**. In conducting the review, the teams shall consider any changes in organization, local conditions and other factors including an evaluation of the results of the annual test of the emergency response procedures which may necessitate updating of plans. If the plan requires no changes, then it shall remain in effect. If the district-wide plan requires change, then the updated plan shall be submitted to the Board of Education in time to allow 30-days of public comment and to hold a public hearing which provides for the participation of school personnel, students and other interested parties prior to Board adoption. All plans must be adopted by the Board of Education by **September 1st**.

The Superintendent of Schools shall be responsible for filing the district-level school safety plan and any amendments to the plan with the Commissioner within 30 days after their adoption. Description of Duties of School Monitors and Community Resource Officers

School Monitor: All School Monitors must be registered with New York State as security officers. As a Security Guard (also referred to as a School Monitor), each guard must Complete an eight hour and a sixteen hour security officer's course. The SSD's promote a better understanding of our laws, why they were enacted and their benefits. They provide a visible and positive image for law enforcement. They educate students by visiting classrooms and making presentation on school safety. They work with school administrators to investigate criminal violations, which involve students as suspects or victims, and they assist students with law related concerns.

Implementation of School Security

Appropriate school building security measures and procedures have been determined by the District-Wide School Safety Team and Building-Level School Safety Team after review of school building procedures and practices, security surveys, and building-level occupant surveys. Based on these findings, we have implemented the following security measures:

District-Wide School Safety Plan

Hazard Identification

As part of each Building-Level Emergency Response Plan, each Building-Level School Safety Team will determine sites of potential emergencies that may impact the individual school building. Such sites may include, but not be limited to, all school buildings, playground areas, properties adjacent to schools, off-site athletic fields, buses and off-site field trips.

Responses to Violence

All incidents of violence, whether or not physical injury has occurred (verbal abuse, threats of violence, etc.), should be reported immediately and documented on the **Incident Report Form**. With the realization that employees and students may otherwise be reluctant to come forward, we will maintain confidentiality. Individuals will be assured that there will be no reprisal for reporting their concerns. Incidents will be reported as follows:

The School Building Principal/Administrator or Designee will be responsible for receiving and responding to all incident reports including anonymous reports.

Reporting:

Once an incident has been reported, and depending on its severity, the School Building Principal/Administrator or Designee will assume responsibility as the Incident Commander until transfer to local law enforcement and the Superintendent.

- Report it to the appropriate law enforcement agency.
- Secure the area where the disturbance has occurred.
- Ensure the physical safety/medical management of students/staff remaining in the area as soon as possible.
- Ensure that while responding to the incident, the remainder of the building remains appropriately supervised.
- Quickly assess the area of the incident to determine damage as a result of the incident and if it is safe to remain. If necessary, evaluate or shelter as per School Building Emergency Response Plans.
- Provide incident debriefing to students/staff, as needed. Notify parents.

Newburgh Enlarged City School District

District-Wide School Safety Plan

Investigation:

After the incident has occurred, members of the Advisory Leaders Emergency Response Team (ALERT) will conduct a detailed investigation. It is the purpose of ALERT to focus on facts that may prevent recurrence, not find fault. ALERT will:

- Collect facts on how the incident occurred.
- Record information.
- Identify contributing causes.
- Recommend corrective action.
- Encourage appropriate follow-up.
- Consider changes in controls, policy and procedures.

Follow-up:

The school district recognizes the importance of responding quickly and appropriately to the medical and psychological needs of students/staff following exposure to a violent incident. All individuals affected by a violent act in the school district will be provided with appropriate medical and psychological treatment and follow-up. Provisions for medical confidentiality and protection from discrimination will be included to prevent the victims of violent incidents from suffering further loss.

Evaluation:

The District-Wide School Safety Team is responsible for ensuring that an initial school building security analysis is conducted and periodically re-evaluated. These physical evaluations will focus on the identification and assessment of school building security hazards and address necessary changes in building practices. These evaluations will review the potential for different types of violent incidents including bomb threats, hostage-taking, intrusions and kidnapping. Professionals will be utilized from local law enforcement and private consultants, as necessary.

Disciplinary Measures:

The school district Code of Conduct will be the basis for determining the appropriate disciplinary measures that may be necessary.

Code of Conduct:

The School district has created a detailed Code of Conduct to describe the expected behavior of students, staff and visitors to school buildings and the disciplinary actions resulting for violations of the Code. The Code, which will be communicated to all students/staff and parents, will serve as a major component of our violence prevention program. The Code will be evaluated annually and revised as necessary to reflect changes in school policies and procedures. A copy of the Code of Conduct will be made available to students, parents, staff and community members.

Newburgh Enlarged City School District District-Wide School Safety Plan

Emergency Response Protocols - Notification and Activation (Internal and External Communication)

Quick and accurate contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on School-Building Safety Teams. These individuals and appropriate means of contact are documented in the Building-Level Response Plan.

Internal communication is also of prime importance and will be specifically defined in the Building-Level Response Plan. Depending on the nature of the emergency, some of the communication methods will include telephone, fax/e-mail, district radio system, NOAA weather radio, intercom, local media, emergency alert system, cellular phones and others as deemed necessary. Appropriate notifications and methods will be determined by the District-Wide School Safety Team.

Newburgh Enlarged City School District

District-Wide School Safety Plan

The NECSD will utilize technology, including Chromebooks and Google Classroom, to support remote learning. All Pre-K through 12th-grade students will have Chromebooks to support learning at home. In an emergency, closing provisions will be made to the greatest extent possible to ensure all students have their devices at home for instruction.

- Students in grades 9 - 12 currently have 1:1 access at school and home.
- Students in grades Pre-K thru Grade 8 currently have 1:1 access at school only.

In the event of school closure due to an emergency, the district will execute a plan for device distribution to families of students in grades PreK- 8 in a timely manner. Deployment of devices will be announced via robocall, posted on the district website and on social media sites. Please ensure your contact information is updated in your Parent Portal account so you receive all important information.

A Digital Equity survey will be performed in the Fall of each year and will help inform the district of the need for internet services within our school community. This information will assist building leadership, staff, and the technology department in deploying internet support to families needing internet access. A list of community-based internet access sites will be available on the district website.

If needed, NECSD will provide learning packets and assignments for students without internet access to participate in daily instruction. This will be made available for pick up at any district school. If you have any questions or concerns with access to Technology or need assistance, please submit a [student helpdesk ticket](#) or call (845) 568-6540.

Google Classroom & Seesaw

The primary place where your child will receive instruction and educational materials is through Google (Google Classroom(s) and student Gmail) or Seesaw (Prek-2). These applications, in addition to other useful applications, can be found on the Launchpad section of the district's website. The link to your child's Google Classroom site will be sent by email from their teacher. Students should be encouraged to access their Email through Launchpad Classlink.

Instructional Delivery

Students will experience a combination of synchronous and asynchronous lessons and activities. During remote learning, the Office of Curriculum and Instruction will set the parameters for the time allotted for asynchronous and synchronous learning. Expectations will vary based on grade level and unique needs of the students. Time for staff to receive professional learning will be assessed and asynchronous learning will be offered to students.

Newburgh Enlarged City School District District-Wide School Safety Plan

Synchronous	Lessons are broadcast online live while the learner participates from another location with the teacher.	Students will access teaching and learning via Google Classroom. The whole group and small group instruction will be delivered to students face-to-face with a teacher.

- Secondary students (Grades 6-thru 12) must follow their remote schedule, and attendance will be taken for each period of the day.

Instruction for those students whom remote instruction by technology is not available or appropriate

It is understood that for a small percentage of students, remote learning may not be appropriate. The Principal will work with the Assistant Superintendent for Curriculum and Instruction to identify these students and develop an alternative model of instruction. One alternative would be the provision of learning packets and assignments. These will be made available for pick up at any district school.

Special Education

A special education faculty meeting will be held once the decision to close is communicated. Special education administrators will engage the teaching and support staff through a process to identify the necessary materials and resources needed to deliver remote instruction.

The district will comply with the student’s Individualized Education Plan to the
